English – B2 Certificate

Profile

Developer with over 15 years of hands-on experience. Specialized in e-commerce projects (PHP / Adobe Commerce / Magento 2), including extensions implementation and system integrations. Experienced in the full software development cycle – from requirements analysis, through implementation, to post-deployment support. For the last 8 years, specialized in developing e-commerce solutions on the Magento platform (PHP based framework)

Professional experience (recent)

CEPD.TECH | 2025 – now
Senior PHP Developer (Adobe Commerce)

Developed and maintained scalable e-commerce solutions on the Adobe Commerce (Magento 2) platform using PHP, supporting the Swedish, Austrian, and Polish markets

Worked across the full development lifecycle, from solution design and implementation to deployment and maintenance

Technologies: Adobe Commerce (Magento 2), PHP, Alpine.js, AI-assisted development tools (GitHub Copilot CLI, Claude CLI, PhpStorm AI Assistant)

Key achievements:

- Designed and implemented deployment automation for launching e-commerce stores in new markets, reducing manual effort and improving the consistency of market rollouts
- Developed a content translation module integrated with Vertex AI, automating the translation workflow for website content

Development and collaboration tools: Jira, Confluence, Microsoft Teams
